

KALEIDOSCOPE

RESOURCES LIST

Updated for Kaleidoscope 2.3 and MacOS 9.1

wind# cinf cpat ppat

ID Name

0. Notes**0.1. General**

- It is strongly recommended to also read the K2 Reference file that comes with Kaleidoscope
- In order to view the graphical guides at the end of this list correctly, make sure that the zoom percentage in Acrobat Reader is set to 100%
- All resources must have their System Heap en Purgeable bits set
- All sizes are given as width x height

0.2. Abbreviations used in the heading

cinf = Control INformation resource
 cpat = Cicn PATtern resource (scaled cicn)
 ID = IDentification number of resource
 Name = Name of resource
 ppat = Pixel PATtern resource
 wind# = WINDow part code list resource

Scheme File Resource Types**1. Color Icons (cicn)****1.1. Document Windows**

- √ -14336 Document Window, Expanded (inactive)
- 14335 Document Window, Expanded (active)
- 14334 Document Window, Expanded – Grow Box (inactive) [size: 17x17]
- √ -14333 Document Window, Expanded – Grow Box (active) [size: 17x17]
- 14332 Document Window, Collapsed (inactive)
- 14331 Document Window, Collapsed (active)
- 14330 Document Window – Widgets (pressed)
- 14329 Document Window – Zoom Boxes, Vertical/Horizontal (normal/pressed)

1.2. Dialog and Alert Windows**1.2.1. Modal variant**

- √ -14328 Dialog Window, Modal (inactive)
- 14327 Dialog Window, Modal (active)

Note: The Finder Icons come in two variants: the 32-bit variant for MacOS 8.5 and up (found in the single icns resource), and the 8-bit variant for older versions of the MacOS (found in the multiple ic resources). Versions of the MacOS previous to MacOS 8.5 can't read the 32-bit icons, so if the users of older systems should also benefit from the scheme, the 8-bit icons must be included.

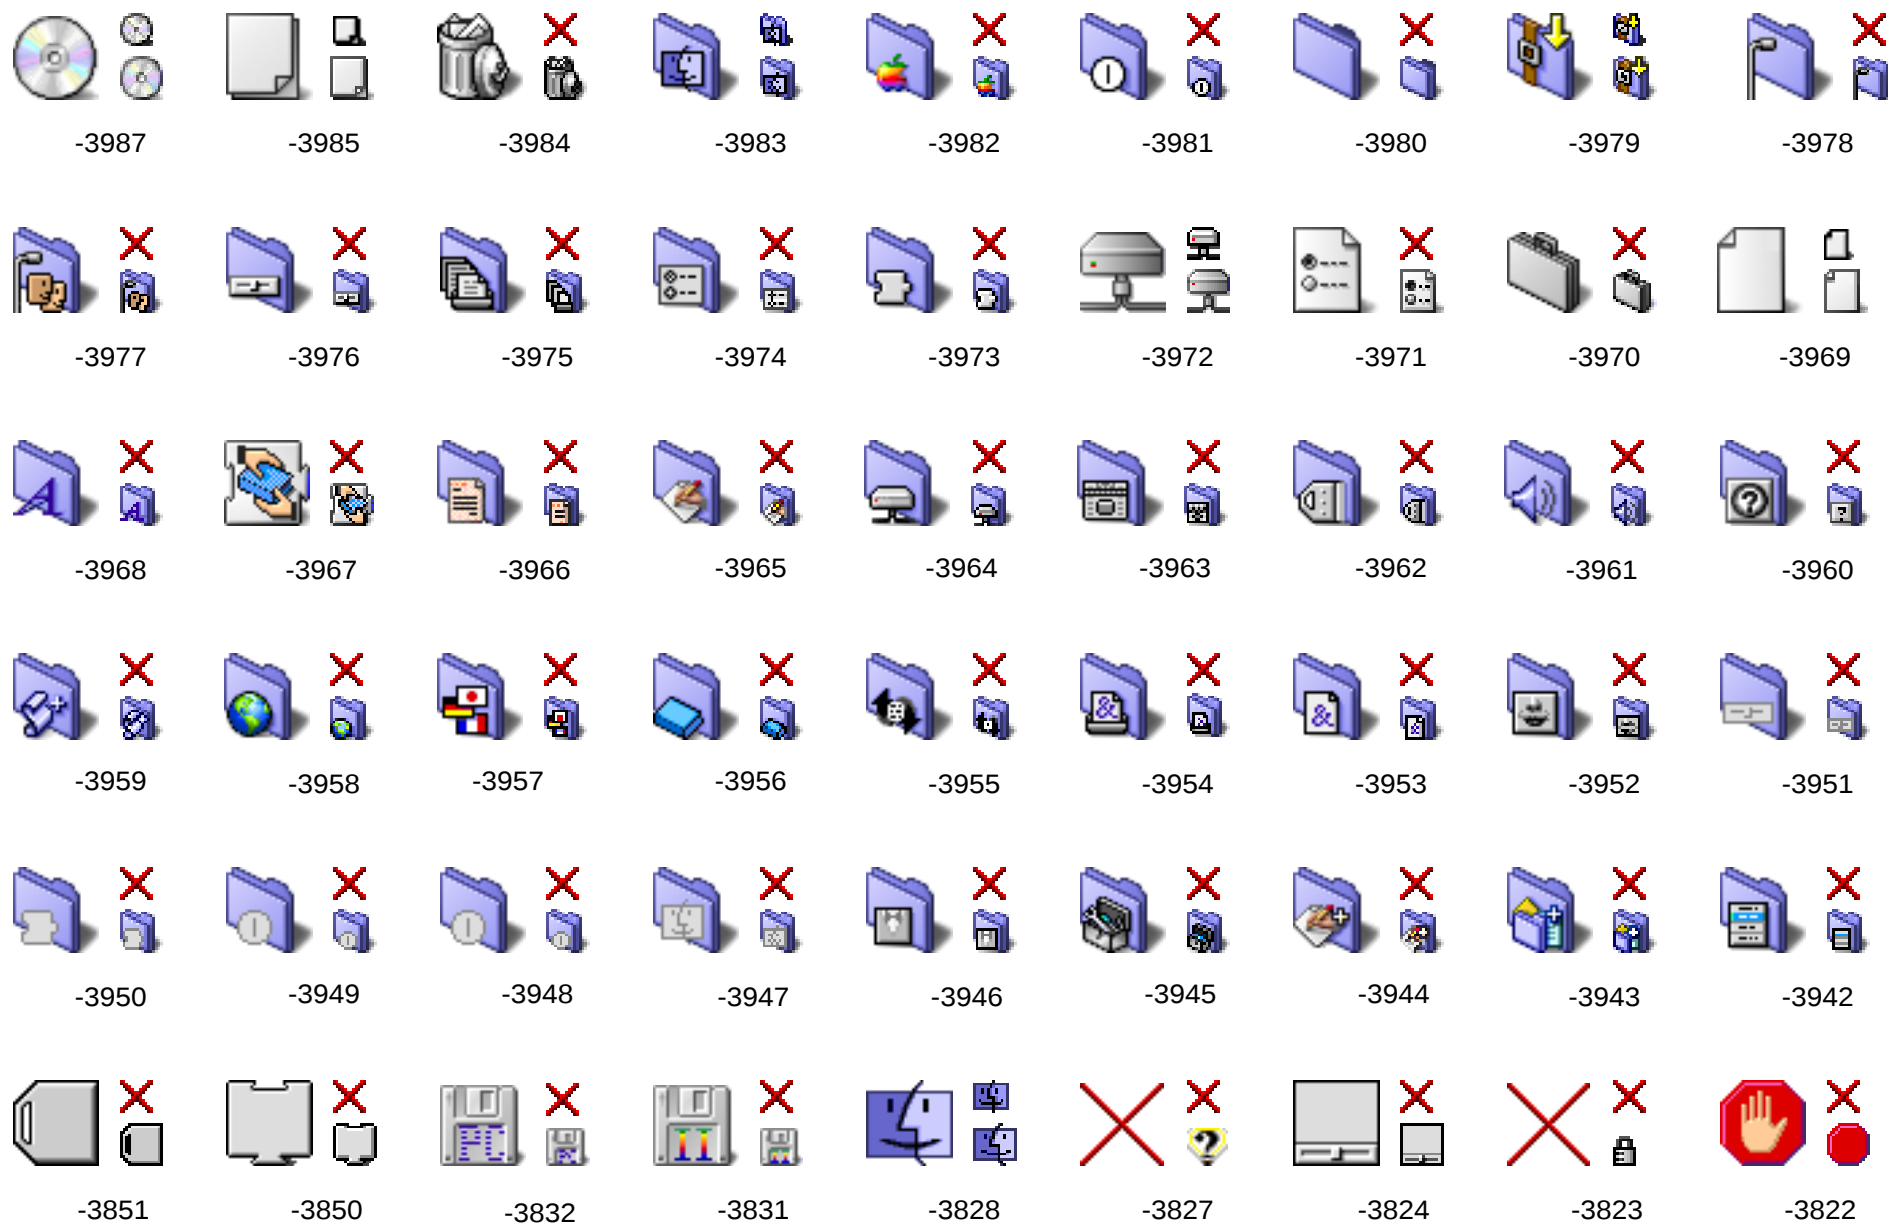

Each icon may have 3 sizes: large (size: 32x32), small (size 16x16) and mini (size 11x12). In the following visual guide, the left icon shows the large variant, the bottom right icon the small variant, and the top right icon the mini variant. A red cross indicates that a particular size is not used by the MacOS.
